

## THE EVOLUTION IN SHELVING RACKS

Bruegmann EvoRack™ is a true evolution in shelving racks. With the slimmest uprights in the market, EvoRack™ significantly increases shelf capacity. The precise upright slot spacing creates optimized horizontal space and allows for easy shelf adjustments.

In combination with FlexRoller™, you can further eliminate manual fronting and drive significant labor efficiencies while also enhancing the shopper experience. EvoRack™ is available in multiple shelf depths and compatible with any door manufacturer.

### Benefits

- Expanded holding capacity
- Improved backstock management
- Increased employee satisfaction
- Effortless shelf angle adjustments for one person
- Improved planogram flexibility and easy resets

### Features
